

Dear Resident

I would like to introduce myself to you. I am just a little guy and I don't like to eat much.

I prefer my food cooked, though, almost anything is digestible, (in small quantities)

There are, however, a few foods **I am allergic to such as: CELERY, RAW FRUIT AND VEGETABLE SEEDS/PEELINGS. I especially don't like ROCKS, BOTTLE CAPS, BONES, GLASS or other hard objects!** These are detrimental to my health and could be fatal.

**All I ask is that you treat me with respect. I am here to make your life easier.**

**TO OPERATE ME: 1. TURN ON WATER FIRST  
2. TURN ME ON NEXT  
3. FILL ME, BUT NOT TOO MUCH AT  
ONE TIME**

If I get stuck, use wrench or broom stick to get me unstuck  
If I hum press reset button on my side

Sincerely,

Your Kitchen Disposal
